

VIBOT Day 2009
June 19th, 2009, Heriot-Watt University, UK
<http://www.vibot.org>

VIBOT Day 2009 is a free event, however you need to register. To register, please complete and return the registration form below. **Free registration includes presentations, coffee breaks and lunch.**

Registration Form

Fax, email or post this form to the address shown on the right.
For the organization of the lunch, register before May, 15th 2009 if possible.

Dr Yvan Petillot / Dr Daniel Clark
Heriot-Watt University,
Riccarton Campus
School of Engineering and Physical
Sciences, Edinburgh Eh14 4AS
UK
Email: Vibot@hw.ac.uk
Phone: +44 (-0) 131 451 8277
Fax: +44 (-0) 131 451 4155

VIBOT Day 2009

Heriot-Watt University, Edinburgh
United Kingdom
June 19th 2009

MASTERS Erasmus Mundus in Vision & Robotics

www.vibot.org

What is VIBOT?

VIBOT is a two-year Master Program in 3D Vision and Robotics accredited in 2006 by the European Commission in the framework of the Erasmus Mundus program, a co-operation and mobility program of the European Commission in the field of higher education in order to promote the European Union as a centre of excellence in learning around the world. It is the only Erasmus Mundus Master Program in 3D Vision and Robotics among the 103 Erasmus Mundus Master Programs accredited since 2004 in all disciplines.

VIBOT Master students have courses in the three collaborating universities: Université de Bourgogne in France, University of Girona in Spain and Heriot-Watt University in Scotland. They spend one semester in each of these three universities and the fourth semester in training. Every year more than 300 international applications are processed and only about 20-30 students with the best academic records are selected. The admission of the brightest students from all over the world, some of whom were already working in companies, allows to create an international and mobile educated workforce of high level for the European community.

VIBOT Master courses are given by faculties and visiting professors who belong to well-known research laboratories that have long-standing reputation for high quality research. The courses start from a comprehensive coverage of the prerequisites in the field of digital imaging (hardware and software) and basic image processing algorithms, and end up with research level teaching of their applications in the fields of robotics, medical imaging and 3D vision systems. The close location of research laboratories on campus allows the faculties to involve students at all stages of research and offer them many opportunities to participate in state-of-the-art research work.

Besides technical skills and knowledge, graduate students from the VIBOT Master Program will undoubtedly acquire language skills and a sense of mobility and broadmindedness that will be a real asset in their career.

To conclude, it is the commitment of the VIBOT Master program to educate highly trained candidates and leaders, ready to face the challenges and complexities of today's and tomorrow's society.

Sponsors

What is VIBOT Day?

VIBOT Day 2009 will be held at Heriot-Watt University Post-Graduate School, Edinburgh, UK, on June 19th 2009. It is a one-day event during which you will learn more about the VIBOT – 3D Vision and Robotics Master program and the collaborative opportunities that are offered to companies wishing to sponsor the program. You will also attend several oral and poster presentations given by newly graduated students that will raise your awareness of the academic excellence of the students as well as the high level of the courses taught in the program. Moreover, this one-day event will also be an opportunity for you to meet and discuss with current international students. If you are seeking collaborative opportunities and/or looking for outstanding and highly trained candidates prepared to face the challenges of today's and tomorrow's world then VIBOT Day is the right place. Do not miss this opportunity. If you wish to interview candidates, separate rooms will be available.

Preliminary program

9h00	Welcome
9h15	Introductory speech by Pr. Douglas Greenhalgh, Head of the School of Engineering and Physical Sciences, Heriot-Watt University
9h30	Presentation of the VIBOT Master Program by Pr. Fabrice MERIAUDEAU, Coordinator of the Program
9h45	Student presentations
10h45	Poster session and coffee break
11h30	Company presentations
12h30	Buffet Lunch at the Post Graduate School
14h00	Student presentations
15h00	Poster session and coffee break
16h00	Company presentations
17h00	Close
